D'Archers was established over twenty years ago. It's founder and current Chairman is Simon Linton. In the early years there wasn't the luxury of an Archery Club in the region, which meant Archers had to transport their equipment to wherever there was a safe place to shoot.

There followed a six-year association with the Dubai Country Club, which sadly ended due to closure leaving D'Archers without a shooting range yet again.

Sharjah Wanderers Golf Club came to our aid and offered us the means to re-establish our Archery Club. We now have a great facility where we can shoot safely and in harmony with our Golfing friends

D'Archers is entirely run by volunteers who are in full-time employment within the UAE.

We don't employ staff within the club. All enquirers and communication should be channeled to key club members via email, SMS or phone during weekdays.

OUR AIM

- To solely promote the sport of Archery.
- To provide a supervised and safe environment for all Archers
- To introduce beginners to this ancient sport and allow experienced Archers the opportunity to nurture and better their skills.
